HUTCHINSON, KANSAS.

POINTER NO. 133.

Activity is contagious.

Arrangements for a spirited, vigorous and active spring business are now being formulated here.

Advance shipments of Waist Silks, Ducks, Peques, Percales, Toile Du Nord Gingham, Dress Goods and Dress Trimmings, were unpacked yesterday. As you are possibly aware, there is a decided predisposition in favor of Silks, a partiality for Silks, a fondness for Silks, and a liking for Silks, a leaning towards Silks, and a tendency to wear Silks for Waists and Dresses a greater extreme than has ever been known before. The prices so low furnish grounds for the wildest speculation and prediction as to the eagerness and aptitude with which these beautiful, practical fabrics will be received by people of moderate means. The assortments here are larger and more varied than anywhere else--the silks firmer and a little wider--and the price so low that Gingham cease to be an economy.

20-inch Pure Silk

"Kai-Kai"

(washable)

35c yd.

This price should enable every one to have at one silk waist at least.

21-inch Pure Silk

"Habuitai,"

(washable.)

Twenty-Five designs

45c yd.

A scarcity of these "Jap" silks is predicted, so an early choice would no doubt be judicious.

COUNTY NEWS FROM OUR EXCHANGES.

ylvia Banner.

Meers, A. N. Bontz and James Roberts made a business trip to Hutchinson Monday.

Mrs. E. E. Hopper and babies of Preston are visiting the family of Jeff Bower this week.

Jeff Bower was in Hutchinson Wednesday, being examined for an increase in his pension.

Eldon Forney, after undergoing a very severe surgical operation some time ago, was on the streets Monday. We are glad to see him out again.

J. H. Elkin started for his claim in the strip the first of the week. While we are loath to lose such men as Mr. Elkin, we congratulate his neighborhood on securing such a good citizen, and wish him well in his new home.

On Monday evening of last week a number of invited guests gathered at the home of Mr. and Mrs. J. M. Gillespie and spent a very enjoyable evening. As the merry crowd departed the sentiment was general that a more pleasant time could not have been had.

Thursday evening a large crowd gathered at the home of Mr. and Mrs. John McLean and spent a very pleasant evening. Dancing and card playing were the principle amusements. Late in the evening refreshments were served, to which all present did ample justice.

Sickness in this community is abating somewhat.

Miss Anna Garber has been quite sick the past week.

Mrs. Crofts entertained visiting friends the latter days of last week.

Nelson Barr has recovered from his recent sick spell sufficiently to visit town.

Two of the children of W. B. Hemphill has been sick but are now convalescent.

Several district schools in this community will close about the end of the present month.

It was a thoughtful ground-hog that pulled the hole in after it, otherwise it might have got frozen.

This is the kind of weather that invariably restores the oldest inhabitant to his pristine glory.

There has been somewhat of a dearth in the grain market of late--probably on account of the cold weather.

Irrigation in this section of the country is becoming one of the most important problems confronting the progressive farmer.

Miss Lucy Branstetter, one of the estimable young ladies of Cunningham spent Sunday in Pretty Prairie the guest of Mrs. Elbury.

The recent cold snap was hard on house plants. The average house wife has a dreadful "tale to tell" about having lost her most valuable plants of late.

What a Woman Can Do

I want lady friends to know of the new field now open for them. In the past 6 months we have made a profit of \$907.02 after paying all expenses. All our sales have been made at home, not having canvassed any. My official duties calling me away most of the time, I left the Dish Washer business in my wife's control with the above results. The business is rapidly increasing, and will continue to grow until every family has a Climax Dish Washer. Not a day passes but what we sell one or two and some days fifteen or twenty Dish Washers. It's easy selling what everybody wants to buy. You can wash and dry the dishes perfectly in two minutes. For particulars, address the Climax Mfg. Co., Columbus, Ohio. Get a sample Washer and you can't help but make money. They only cost \$5. You may just as well be making \$5 a day as doing nothing.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user becomes a stimulant that his system continually craves.

Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin Physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless.

You can use all the tobacco you want while taking Baco-Curo. It will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 10 per cent interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke.

Sold by all druggists, with our iron-clad guarantee, at \$1.00 per box, three boxes, (thirty days treatment,) \$2.50 or sent direct upon receipt of price.

Farming by Irrigation in the San Luis Valley.

The San Luis Valley in Southwestern Colorado, is a great level plain as large as the State of Connecticut, surrounded by ranges of lofty mountains, and is watered by the Rio Grande River and a score of tributary streams. It was the bottom of a great sea, whose deposits have made the soil many feet in depth. The great deposits of snow on the mountains melt and provide the irrigating canals with water for the farmer's crop. Almost perpetual sunshine and an elevation of about seven thousand feet dispel all malaria. There are no chinch bugs, potato bugs, weevil or hog cholera there. Flooding artesian wells are secured at depth, on an average, of about one hundred feet, and at a cost of \$25 each. They are used for irrigating yards, garden and vegetable crops. The greater the depth, the stronger the pressure. The City of Alamosa, containing twelve hundred people, is irrigated and supplied from one such well. The water is pure and soft. Several thousand miles of irrigating canals have already been built, and several hundred thousand acres of land are now available for farming. Irrigation is an insurance against failure of crops. Success is a question only of the application of water. The loss of the corn crop in the State of Kansas this year more than equals the cost of irrigating canals adequate to supply the entire state. The San Luis Valley grows immense crops of spring wheat, oats, barley, peas, alfalfa; all kinds of vegetables and potatoes yield the best Colorado product. The small fruits and the hardier varieties of apples and pears do exceedingly well. Forty acres with a perpetual water right is enough land for the farmer of ordinary means. At the present time poultry, hogs, dairying and potatoes should be specialties. The local markets consume most of the farmer's product. Prices are from ten to fifty per cent. higher than in the Missouri Valley, and the yield more than fifty per cent. greater. Including such water rights, such lands are selling at \$15 per acre on time. With \$200 in cash, when the farmer arrives in the valley, his way is clear to immediate success. The Denver & Rio Grande Railroad has four lines radiating from Alamosa. No company is more enterprising, better managed, or more popular with its patrons.
